I have a Chinese student that is interested in ham radio. He is interested in talking with his parents in mainland China. Can his parents go to an ham station probably a club and talk to him while he is in this country. How do his parents go about getting a license in China and can they own a station other than a club station.

I just picked up a copy of the ARRL SPREAD SPECTRUM SOURCEBOOK (\$20). Haven't gone through it yet but seems like a good starting point for anyone interested in learning about or getting into spread spectrum.....Just thought I'd post info in case someone was interested.

Is there a way for the 470 to receive in the 800 Mhz range?

Thanks.
